Dear Parents,

### Home Learning whilst your child self isolates

The Government expects us to provide a full day of education for any children who are unable to attend school because they are self-isolating due to the Coronavirus outbreak. Teachers have been working hard to produce work that will be accessible at home. These plans are available via the Pupil Zone on the school website.

If your child/children need to self-isolate and are well enough to work they will be expected to complete their school work at home. Please see below a suggested timetable and timings for home learning.

**Please be aware that in order to support long term learning it is important to learn in small steps and to repeat the learning often. This is why the TT Rockstars are repeated during the day, but are not at the same time as the Maths session- it is better to make the brain work harder and separate them.**

Please take time to familiarise yourself with the plans on the school website. Your child will **only** be expected to complete the work for the particular week(s) they are self-isolating at home.

### **Maths**

Four days of White Rose maths videos and worksheet will be uploaded to the class page, weekly. The fifth day, Friday, children will be expected to play maths games on Top marks. Alternatively, revise, practise or complete any work from this week.

We are expecting children to practise Times Tables Rockstars daily. The children will be sent home with their logins for these sites over the next week. Please contact the class teacher if the child has lost their logins.

### **English**

Each class will be set a writing project via the talk4writing <https://www.talk4writing.com/home-school-units/> website. If your child needs to stay at home, they should start the project from the first activity in the booklet. Please see the class plan for more details.

Children will be expected to read and login to Spelling shed daily.

Please continue to log your child's reading.

### **Project Learning**

Please follow the lesson links and use the knowledge organiser and booklet to support your child.

### **Physical Activity**

The teacher will not be setting any tasks for PE however we feel it is incredibly important that all children participate in at least 30 minutes of physical activity per day. We have listed some suggested activities and websites that can be completed at home.

### **Project books**

Please continue to use the workbooks provided in March.

Please contact the class teacher via the class email if you need any support or additional guidance.

Finally, we would like to reiterate how important it is that your child follows curriculum plan for their year group. If they fail to do so, they risk falling behind with their learning.

Yours Sincerely

Luci Amos
