

Rapid Recap

Partition these numbers into tens and ones.

A number sentence can also be written vertically (from top to bottom). This can be useful when we add or subtract large numbers. Let's have a look at how it works. Look at the number sentence.

$$4 + 3 = 7$$

Base ten blocks representing the equation: 4 tens rods, 3 ones units, and 7 tens rods.

	tens	ones
	0	4 ■ ■ ■ ■
+	0	3 ■ ■ ■
	0	7 ■ ■ ■ ■ ■ ■ ■ ■ ■

We write the place value with tens in one column and ones in the other.

Step 1: Add the ones

Step 2: Add the tens

Step 3: Put the tens and ones together

The answer is written at the bottom of the columns.

We can use what we know about place value to write the number sentence in columns.

Draw in the tens and ones then write in the answer to the number sentence and the column addition.

a $6 + 3 =$ 9

$$\begin{array}{r} 6 \\ + 3 \\ \hline 9 \end{array}$$

tens	ones
	
	
	

b $11 + 6 =$ 17

$$\begin{array}{r} 11 \\ + 6 \\ \hline 17 \end{array}$$

tens	ones
	
	
	

Fluency

This time the tens and units have already been drawn in but you need to write in the numbers and complete the number sentence.

a

tens	ones
 1	 4
+	 2
1	 6

$$\boxed{14} + \boxed{2} = \boxed{16}$$

b

tens	ones
	 3
 2	 2
 2	 5

$$\boxed{3} + \boxed{22} = \boxed{25}$$

	tens	ones
	1	7
+	3	2
	4	9

	tens	ones
	6	4
+	2	5
	8	9

	tens	ones
	1	4
+	4	3
	5	7

	tens	ones
	2	3
+	5	5
	7	8

	tens	ones
	7	2
+	1	7
	8	9

	tens	ones
	3	1
+	4	4
	7	5

Challenge

I am going to give you some word problems can you answer them using the column method. Don't forget to work out the calculation and write the answer in words.

I have 24 children in my class. There will be 5 new children joining in September. How many will we have in my class in September?

		2	4
+			5
		2	9

29 children

I am waiting for a delivery. I have already waited 58 days and I must wait 11 more. How many days will I have waited in total until my delivery comes?

69 days

		5	8
+		1	1
		6	9

I have 22 birthday cards. The next day, 27 more arrive. How many birthday cards did I receive?

	2	2
+	2	7
<hr/>		
	4	9

Extension

These problems have 2 steps. Show all your working out.

1. On a school trip 56 people visit a museum. There are 45 children and 4 teachers, the rest are parents. How many parents are there?

$$\begin{array}{r} 45 \\ + 4 \\ \hline 49 \end{array}$$

2. On a school trip 72 people visit a museum. There are 53 children and 7 teachers, the rest are parents. How many parents are there?

$$\begin{array}{r} 53 \\ + 7 \\ \hline 60 \end{array}$$

3. In a week John saves £1.75, on Monday he has 55p on Wednesday 75p. How much does he save the rest of the week?

$$\begin{array}{r} \text{H} \quad \text{T} \quad \text{p} \\ + 55 \text{ p} \\ 75 \text{ p} \\ \hline 130 \text{ p} \end{array}$$

John saves 45p the rest of the week.

Tuesday 5th May 2020

Rapid Recap

Complete the number sentences using number facts.

a $10 + 70 =$ 80
 $1 + 7 = 8$

b $50 + 30 =$ 80
 $5 + 3 = 8$

c $80 + 10 =$ 90
 $8 + 1 = 9$

d $60 + 40 =$ 100
 $6 + 4 = 10$

e $70 + 20 =$ 90
 $7 + 2 = 9$

f $40 + 30 =$ 70
 $4 + 3 = 7$

g $10 + 20 =$ 30
 $1 + 2 = 3$

h $30 + 30 =$ 60
 $3 + 3 = 6$

(If you cannot print this, simply write the numbers on paper)

Today we are going to continue adding two numbers together using the column method.

	tens	ones
	0	4 ■ ■ ■ ■
+	0	3 ■ ■ ■
	0	7 ■ ■ ■ ■ ■ ■ ■

We write the place value with tens in one column and ones in the other.

Step 1: Add the ones

Step 2: Add the tens

Step 3: Put the tens and ones together

The answer is written at the bottom of the columns.

Fluency

tens	ones	tens	ones	tens	ones
6	2	3	5	5	8
+	4	+	4	+	1
6	6	3	9	6	9

Set out these number sentences for me using the column method.

27+ 12

45 plus 54

68 and 21

	T	O
	2	7
+	1	2
	3	9

	T	O
	4	5
+	5	4
	9	9

	T	O
	6	8
+	2	1
	8	9

Extra

Challenge

Answer the word problem using the column method. Take care to line up the tens and ones correctly. This will help you not to make a mistake.

1. One bag of sweets has 35 sweets in it, the other 42. How many sweets are there altogether?

$$\begin{array}{r} 35 \\ + 42 \\ \hline 77 \end{array}$$

There are 77 sweets.

2. One bag of sweets has 25 sweets in it, the other 46. How many sweets are there altogether?

$$\begin{array}{r} 25 \\ + 46 \\ \hline 71 \end{array}$$

71 sweets

5+6=11 so I carry the 10. Then I include it when I total the tens.

3. I save 39p one week and 24p the next week. How much money have I saved in total?

$$\begin{array}{r} 39 \\ + 24 \\ \hline 63 \end{array}$$

9+4=13, so I carry the 10. Then I include it when I total the tens.

4. I need 44 cups for a party. I have 12 so far. How many more will I need?

	1	2
+	3	2
<hr/>		
	4	4

I know $2 + 2 = 4$ and I know I needed 3 more tens to make 40.

I will need 32 more cups.

5. I have 25 friends who I want to send a card to. I have already written 13. How many more cards do I need to write?

	1	3
+	1	2
<hr/>		
	2	5

I know the total and I know how many I have to start with.

Now I need to work out how many more I need to write.

I know $3 + 2 = 5$ so I need 2 more ones and I know $1 + 1$ makes 2 so I need 1 more ten to make 20.

I need to write 12 more cards.

Extension

Complete the calculations.

$$30 + 40 + \boxed{30} = 100$$

$$40 + \boxed{40} + 20 = 100$$

$$36 + 44 + \boxed{20} = 100$$

$$36 + 54 + \boxed{10} = 100$$

$$47 + \boxed{33} + 20 = 100$$

$$47 + \boxed{23} + 30 = 100$$

eg

	30
+	40
	30
<hr/>	
	100

Set them out in the column method.

Can you write a word problem for two of these calculations.

Wednesday 6th May 2020

Rapid Recap

Put the tens and the ones together.

Work it out Wednesday. Each Wednesday I am going to set you a problem to solve. Send your solutions and workings out to me, using our Year 2 email.

On the farm are:

6 horses,

10 cows,

2 dogs,

4 hens

and 5 pigs.

- 1 How many eyes are on the farm? 54 eyes
- 2 How many tails are on the farm? 23 tails
- 3 How many legs are on the farm? 100 legs
- 4 How many heads are on the farm? 27 heads

TIP:

Draw pictures to help you, then write down your calculations to help you check your answers.

Extension: Can you keep the totals the same while changing the amount of each type of animal on your farm.

Rapid Recap

Using the bar model complete the four number sentences.

$$\boxed{29} + \boxed{47} = 76$$

$$\boxed{47} + \boxed{29} = 76$$

$$\boxed{76} - \boxed{29} = 47$$

$$\boxed{76} - \boxed{47} = 29$$

Today we are going to continue with our column addition. I have written an addition sentence very quickly. I wasn't really concentrating. Have I made any mistakes? Circle them and tell your adult what I have done wrong. Clue – I have made more than one.

$$\begin{array}{r} 76 \\ + 17 \\ \hline \end{array}$$

(Note: The student has circled the '7' in the tens column of the first number and the '1' in the tens column of the second number, indicating a misalignment of tens and ones.)

I didn't line up the tens and ones.

I didn't show which operation I was using.

Fluency

Can you set out all the calculation correctly on the squared paper? Can you answer 5?

12 + 13

34 + 15

23 + 32

14 + 52

25 + 20

21 + 8

24 + 44

Did you line up your tens and ones?

	1	2			3	4			2	3					
+	1	3		+	1	5		+	3	2					
	2	5			4	9			5	5					
	1	4			2	5			2	1					
+	5	2		+	2	0		+		8					
	6	6			4	5			2	9					
	2	4													
+	4	4													
	6	8													

Challenge

1) Answer the question using the column method.

18

$$23 + 37 = 60$$

$$\begin{array}{r} 23 \\ + 37 \\ \hline 60 \\ 1 \end{array}$$

1 mark

2) Remember this is a two-step problem.

29

There are **100g** of chocolate chips in the bag.

Sita uses **25g**.

Ben uses **35g**.

How many grams of chocolate chips are **left** in the bag?

Show
your
working

① How much has been used?

$$\begin{array}{r} 25\text{g} \\ + 35\text{g} \\ \hline 60\text{g} \\ \hline \end{array}$$

②

$$100\text{g} - 60\text{g} = 40\text{g}$$

I know $10 - 6 = 4$

How many
are left

40 g

① = my working out I would need to show this.

② = my thinking. You would not need to write this part down in a quiz.

Extension

Work out the next block in the pyramid by adding the two blocks below it. You may find it useful to use the column method to support you.

Friday 8th May 2020

The results of last weeks battle are in. Oh no! The Year 3s won. We shall have to try to beat them next time.

Year 2
